Managing Your Invoices Just Got Easier with ADAMS e-Invoicing Integration

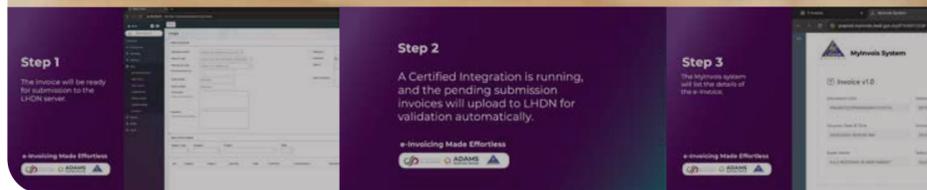

ADAMS seamlessly handles the upload and validation of every invoice with LHDN in the background. Instead of manually uploading each invoice through the MyInvois portal, our new API option automates the process.

Experience the power of real-time integration, eliminating delays and uncertainties. Every transaction is promptly reflected and fully compliant with Malaysian Tax Authority standards.

As Malaysian businesses approach e-invoicing deadlines, now is the time to embrace technology for enhanced efficiency and compliance.

Discover the simplicity of managing invoices with ADAMS e-invoicing integration. Elevate your operations, improve cash flow, and optimise record-keeping practices effortlessly.

Explore how ADAMS transforms invoice management.

PRODUCT INNOVATION

EFFICIENT TIN COLLECTION

Empower Customers with Easy Self-Updates

Collecting Tax Identification Numbers (TIN) from customers can often be a tedious and time-consuming task. Our self-update page streamlines this process by enabling customers to enter their information directly. Integrated with LHDN's server, our system verifies that the input is valid and exists in the LHDN database, significantly reducing the chances of rejection due to incorrect TIN entries.

With just one click, you can easily share this self-update URL via email to individual customers or schedule a broadcast to reach hundreds of customers at once. This efficient approach not only saves you time but also ensures accurate data collection, making the TIN collection process smoother for everyone involved. > [Learn more](#)

SEAMLESS SAP B1 INTEGRATION

Effortless Self-Billed Invoice Validation with LHDN

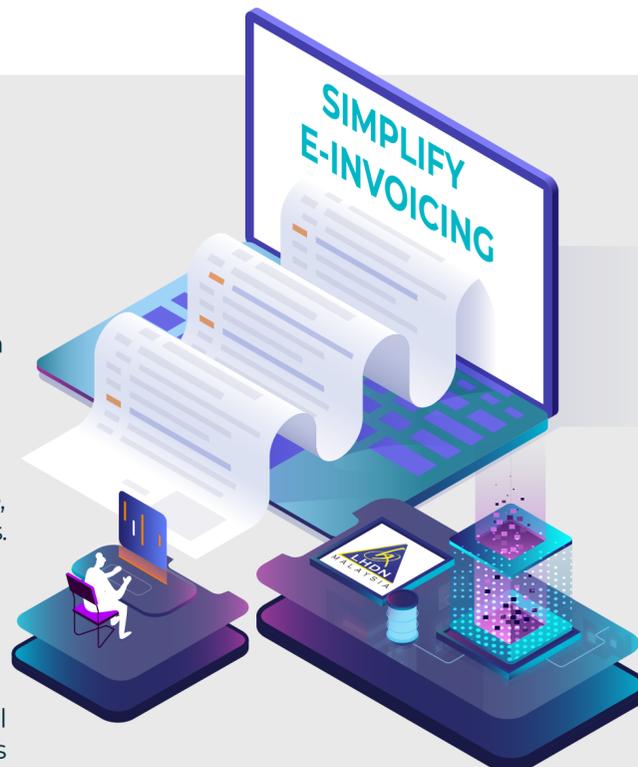

ADAMS offers dedicated support for SAP B1 users by enabling seamless synchronisation of your self-billed invoices with LHDN. Our integration tool efficiently extracts self-billed data from SAP B1 and submits it through our system for validation. This ensures that all your invoicing needs are met accurately and efficiently, providing you with peace of mind and simplifying your compliance process. > [Learn more](#)

SIMPLIFY E-INVOICING

Automatic Submission and Validation

With ADAMS, every invoice you create is automatically scheduled for submission to LHDN, streamlining your workflow. Each invoice undergoes a thorough validation process, and you receive real-time updates on the validation results from LHDN. Once validated, generating a PDF version of your invoice is effortless - complete with a QR code, digital signature, and other essential features.

To simplify the management of your e-invoices, we've integrated them into our e-Invoice Module. This user-friendly interface allows you to easily monitor transactions and quickly address any that fail validation, empowering you to resolve issues and resubmit with ease. > [Learn more](#)

QUARTERLY HIGHLIGHT

Simplify e-Invoicing Collections with SwiF Payment Gateway & e-Invoice Plug-in

SwiF makes e-invoicing compliance effortless. It automates everything from generating and uploading documents for LHDN validation to printing the Unique Identification Number and QR code on your invoices. Plus, with embedded payment links, your customers can make direct payments using their preferred method.

E-Invoicing Made Easy Simplified Integration for Merchant

- Effortless e-Invoicing Submission**
We simplify the integration process, allowing merchants to submit e-invoice documents without the need to navigate the complexities of the UBL JSON format provided by LHDN.
- Streamlined Authentication**
Merchants can utilise our standard SwiFPay authentication API, enabling them to submit documents to LHDN using a straightforward JSON format. This approach saves time and ensures a seamless integration experience.

Bulk e-Invoice Submission

- User-Friendly Bulk Submission**
Our web portal enables merchants without existing systems or integrations to easily submit bulk consolidated e-invoices to LHDN using a standardised file format.

Stay Informed Automated Notifications for e-Invoice Submissions

- Real-Time Status Updates**
Our system automatically notifies merchants of any status updates regarding document submissions to LHDN, ensuring you are always informed.
- No Additional Development Required**
Our merchants are not required to create any additional programmes to check for status updates - our automated notifications do all the work.

Cost-Effective Digital Signature Services

- Seamless Digital Signature Integration**
We offer a convenient service to embed digital signatures directly onto each document submission, ensuring compliance and security.
- Cost-Effective Solution**
Our merchants don't need to purchase a separate digital signature when using our API, making the process more affordable and efficient.

All-in-One Document Generation Create and Submit Directly through your Payment Gateway

Whether you need to generate an Invoice, Credit Note, Debit Note, or Refund Note, you can do it all seamlessly through our portal and submit to LHDN with ease.

- Effortless Document Generation**
Merchants can easily create invoices, credit notes, debit notes, and refund notes using our intuitive web portal.
- Flexible Submission Options**
After generating your documents, you have the choice to submit them to LHDN directly, streamlining your compliance process.
- Automatic Document Numbering**
Our system automatically provides an invoice number or document number for your submissions, ensuring everything is organised and tracked.

Monitor Status Track Your LHDN Submissions

- Comprehensive Submission Reporting**
Our web portal provides detailed reports for every submission made to LHDN, keeping you informed and organised.
- Real-Time Status Updates**
Easily access the details and status of each LHDN submission through the portal, ensuring you always know where your documents stand.
