### ADAMS' New Dashboard Analytics

# Take Your e-Invoicing Further

With the latest updates to the ADAMS e-Invoice Dashboard, managing your invoicing data has never been easier. We've introduced powerful new features that provide deeper insights and give you greater control over your e-invoices. Now, you can effortlessly track monthly invoice volumes, analyse amounts by branch, and quickly view currency distributions.

The Dashboard's enhanced customisation options allow you to filter by branch or e-invoice type, so you can focus on the data that matters most. You can also easily reset settings, add or edit charts, and duplicate or delete dashboards to meet your needs. These updates streamline your workflow and make managing invoicing data more efficient than ever.

## PRODUCT INNOVATION

Over  
**600,000**  
Documents  
Submitted Monthly

## Celebrating the Growth of our e-Invoicing Solution

As we step into a new year, we're excited to reflect on the incredible progress of our e-invoicing solution over the past year. With more than 600,000 document submissions to LHDN each month, our seamless integration has significantly streamlined invoicing processes for our business partners.

While we're proud of this achievement, we remain committed to pushing boundaries and continuing to enhance your e-invoicing experience in the year ahead.

Looking for the most efficient way to handle your invoices? > [Contact us](#)

## Why Choose ADAMS e-Invoicing Module

ADAMS automates and streamlines the e-invoicing process, ensuring seamless integration with LHDN for real-time validation and compliance. Our new API automatically submits invoices, reducing manual uploads and eliminating delays, so your invoicing is faster and more efficient. With ADAMS, you can easily monitor your invoices, resolve validation issues quickly, and generate invoices with QR codes and digital signatures. Some of our key features include:

### TIN Collection

A self-update page that allows customers to conveniently enter their TINs via mobile or desktop, ensuring accurate data and reducing the risk of rejections.

### Consolidated e-Invoicing

Automatically merge multiple invoices into one document, saving time for businesses with high transaction volumes.

### Self-Billed e-Invoices

Effortlessly create self-billed e-invoices for transactions with unregistered sellers, ensuring tax compliance.

ADAMS makes invoicing simpler, more efficient, and fully compliant with Malaysian tax laws. > [Learn more](#)

## B2B2C COLLECTIONS

### Boost Your Payment Collections with SwiF Payment Gateway & e-Invoice Plug-in

SwiF transforms the e-invoicing experience by embedding payment links directly into your invoices, giving customers the flexibility to choose their preferred payment method, whether it's Touch 'n Go, Boost, credit card, or more, at checkout. This seamless integration offers both convenience and security for a smoother payment process. With just a few clicks, you can generate

invoices with payment links, automatically send them to your customers, and ensure compliance with LHDN regulations. Our SwiF e-Invoice Plug-in and Payment Gateway sync transaction statuses with your accounting system and the Malaysian Tax Authority, providing real-time updates and making the entire invoicing and collection process more efficient. > [Learn more](#)

STREAMLINE YOUR OPERATIONS

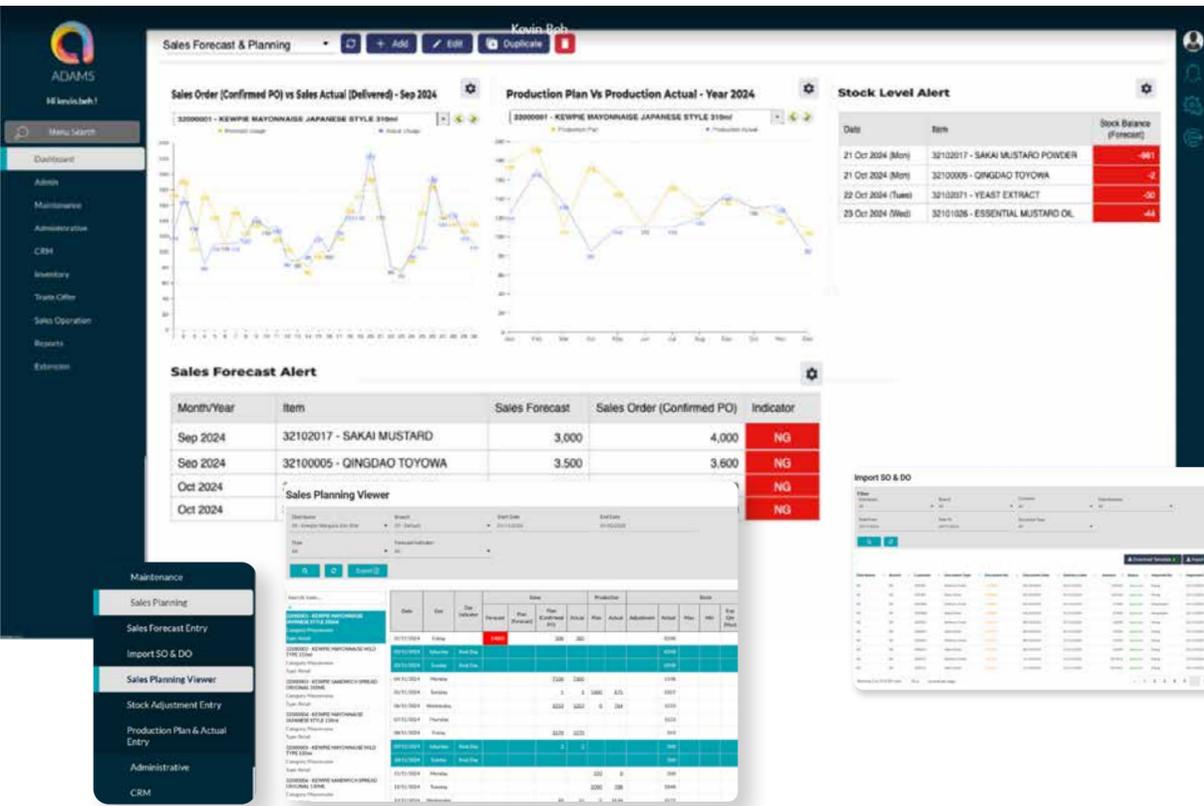

# Introducing ADAMS Sales Planning & Forecasting

## Optimising Sales, Inventory, and Production

The ADAMS Sales Planning & Forecasting module is our latest enhancement, designed to automate and streamline the sales forecasting process. By seamlessly integrating sales planning into ADAMS, we reduce manual effort, minimise reliance on Excel, and provide more accurate, real-time data insights. This powerful tool features advanced data visualisation, making it easier to interpret and manage sales forecasts, track trends, and make well-informed decisions.

For the Sales team, the module supports accurate forecasting and pipeline management through dashboards and reports. For the Production team, it aligns production capacity with demand, ensuring high-demand products are produced in the right quantities. The module also benefits the Procurement team by providing real-time insights into raw material needs based on both sales and production forecasts.

With automatic alerts for insufficient inventory, businesses can optimise stock levels and balance supply and demand more effectively. Plus, with simple import and export functionalities, users can easily manage and track sales and production plans, ensuring seamless coordination across sales, procurement, and production teams.

A MILESTONE ACHIEVEMENT

## Syntrino Solutions is Awarded Malaysia Digital (MD) Status

*Syntrino Solutions is now known as ADAMS AI following a recent business consolidation.*

We are thrilled to announce that Syntrino Solutions, now operating as ADAMS AI, has officially been awarded Malaysia Digital (MD) Status by the Malaysia Digital Economy Corporation (MDEC), effective 25 September 2024. This prestigious recognition is a testament to our commitment to innovation, digital transformation, and our ongoing contribution to Malaysia's digital economy.

Achieving MD Status opens up exciting new opportunities, providing us with MDEC's support to accelerate our growth and enhance our digital capabilities. This significant milestone wouldn't have been possible without the unwavering support from our partners and the dedication of our team to continuously aim higher. We look forward to the next chapter of our journey, striving for excellence and expanding our impact in the digital space. Thank you for your continued support!

ADAMS AI, APAC's leader in supply chain management & data science, integrated with B2B2C fintech, HR tech and workforce management.

STAY AHEAD

## Introducing SwiFConnect Effortless Payment Collections with QR Code and Soundbox Integration

We're excited to announce the launch of SwiFConnect our up and coming mobile app, allowing merchants to collect payments instantly. With SwiFConnect, merchants can generate a unique QR code on their mobile device, enabling customers to scan and complete payments using their preferred method. Payment confirmation will be immediately displayed on both the merchant's app and the customer's payment app, ensuring a seamless transaction experience.

To further enhance control and minimise fraud, SwiFConnect integrates with

Soundbox, adding an extra layer of security with real-time payment confirmation via voice and display.

For ADAMS users, this integration will elevate the Event Management and Redemption Modules, simplifying payment acceptance and tracking. After each payment is processed, the system will sync with Soundbox to provide instant transaction confirmation, making SwiFConnect the perfect solution for events and consignment sales management.

CUSTOMER FEEDBACK

### Your Voice Matters

We value your feedback and strive to continually improve our services. Thank you for being part of the ADAMS AI family.
